Your new and easy point-of-sale solution, delivered

As your company grows and the demands of your customers increase, your business transaction will have to keep up the pace while ensuring a smooth and swift operation around the clock. Thankfully, this is where Mobile Cashier comes in, an advanced and secure point-of-sale solution that enables your business to accept card payments and cash anywhere in the UAE. This means, whether you trade from your business location or you are out and about visiting customers, Mobile Cashier is the must-have tool for you and your business, regardless of its size.

And that's not all. Mobile Cashier also offers you a wealth of mobile benefits, including up to 10,000 intra-company calling minutes, free data and SMS, a new smartphone every year and much more.

Mobile Cashier Benefits

1. Fast onboarding

Enjoy a one-stop-shop experience as all documentation for easy merchant onboarding, device delivery and onsite training will be made available through Etisalat.

2. Lifetime warranty

All Mobile Cashier devices come with lifetime warranty, replacement and model upgrade.

3. Mobile plan

Save more with bundled intra-company calling minutes, SMS and data. Get a free smartphone when you sign up and upon renewal of your subscription every year.

0%

4. Free data and zero bank commission

No data and SMS will be charged on all payment transactions via the Mobile Cashier application. You can also enjoy 0% bank commission on the first successful AED 1,500 transaction value every month; 0% on additional transaction value of AED 1,500 during the first 6 months.

5. Works anywhere in the UAE

Mobile Cashier allows you to accept payments anywhere through Etisalat's comprehensive data coverage. And what's more, the solution works on SMS as well.

6. Safe and secure

Mobile Cashier is Europay, MasterCard and Visa (EMV) approved and Payment Card Industry Data Security Standard (PCI DSS) compliant. These standards start from the moment the card is inserted into the reader and continues throughout the entire transaction.

7. Quick, simple and portable

Simply download the Mobile Cashier application on your smartphone, connect the pocket-sized card reader and start accepting credit/debit card payments in multi-currency.

8. Instant transaction reports

Make more informed business decisions by tracking sales transaction reports via your smartphone or web portal in real time.

Mobile Cashier Plan
